

Kelly Twigger is the Principal of ESI Attorneys, an Information Law and eDiscovery Law Firm in Colorado.

Kelly currently serves as eDiscovery counsel for law firms, municipalities and organizations who do not have in house ESI-specific counsel.

Kelly is the creator of the [eDiscovery Assistant](#) app for iPad, and is a co-author of *Electronic Discovery and Records and Information Management*, a reference book updated annually and published by West.

As former trial counsel, Kelly leverages her firsthand knowledge of litigation tactics to craft, negotiate and implement an effective strategy for requesting, receiving and managing electronically stored information, or ESI, for firms that do not have dedicated eDiscovery counsel.

Kelly is both a former college basketball player and trial attorney, and is happiest during March Madness -- especially when Kentucky is on a roll.

**Joshua Gilliland, Esq.,
Attorney, Blogger, Speaker & Podcaster**

Joshua Gilliland is a California attorney and author of the eDiscovery blog www.bowtielaw.com and www.thelegalgeeks.com with Jessica Mederson, Esq. The Legal Geeks was selected as one of the ABA Journal Top 100 Blawgs in 2013 for the first time and voted "Fan Favorite" in the "For Fun" category.

Josh's blog Bow Tie Law is regarded as one of the top eDiscovery blogs in the country. Josh has also been published American Lawyer Magazine, Corporate Counsel and Litigation: American Bar Association, The Journal of the Section of Litigation.

Josh has presented at over 400 eDiscovery seminars for attorneys, including the Paraben Forensic Innovation Conference, Michael Arkfeld's eDiscovery & Digital Evidence Course, McGeorge School of Law Annual MCLE Program, Legal Tech New York, and the Santa Clara County Bar Association, to name a few.

Josh has developed YouTube and Podcast Channels for The Legal Geeks. Guests have included judges, attorneys, paralegals, comedians, comic book authors and independent film makers. One podcast with Judge Matthew Sciarrino & Jessica Mederson was given an Honorable Mention by the first Geekie Awards in 2013.
